

A-37 MIDI Keyboard Controller

An Affordable Command Center for MIDI Studios and Live Performance.

The A-37 MIDI Keyboard Controller is designed with today's MIDI musicians in mind. Whether controlling a rack of synths or a sophisticated computer-based setup, the A-37 puts you in control with 76 velocity- and aftertouch-sensitive keys, GM2 compatibility and an easy-to-use interface. And all of these practical features come in a cool-looking design that will appeal to your sense of style as well.

*Product pictured is a prototype model. Actual product appearance may be subject to change.
